

**WINDOW CLEANING • FALL PROTECTION • PRESSURE WASHING
MACHINE SWEEPING • JANITORIAL/BUILDING MAINTENANCE**

Program One Diversifies to Remain Stable in an Unstable Economy.

Until 2009, Program One saw 15-20% growth, if not more, every year since it's inception. After the infamous George W. Bush came on the television and told the American People that we are in a recession, we have fought to stay above water and so far we have been successful. For every cut back or cancellation due to the "economy" we bring in a new job to take it's place; lot's of cut backs but also lot's of new opportunities. However, we are unsatisfied no matter how many people tell us were lucky we haven't had to lay any one off.

One philosophy of Program One has always been to "grow the business or die". We truly believe it is this philosophy that has allowed us to remain stable in these very unstable times. As we continue to push for growth so we can offer increases in pay to our long-term employees and managers, we have found it necessary to offer additional services and so far this is proving to be a very effective method.

Wind Damage? Yes, Program One can help with that too.

Recent storms wreak havoc and Program One is there to help. In addition to sweeping parking lots to remove tree branches and other debris left behind after the summer storms Program One has assisted it's customers by doing inspections for property damage as well as performing exterior building repairs.

Most of you know Program One for our Window Cleaning, Pressure Washing and Machine Sweeping Services. What you may not know is that over the past several years we have assisted our clients with things like light bulb changing, sign repair and other handy man services. Offering a wide range of new services has allowed us to remain stable in an otherwise shrinking market place and has also made us an invaluable asset to our clients. Visit our website at www.programone.net or call us for a more detailed list of the types of repairs and maintenance we can do.

Contract Janitorial Work

You have to start somewhere. Program started with one window-cleaning job in 1983 and we now employ over 30 full time window cleaners. We started our sweeping division with one parking lot cleaning in 1996 and we now service nearly 75 shopping centers on a daily basis and dozens of office building parking lots seasonally. We even provide street sweeping to villages like Gurnee, Grayslake and Round Lake Beach.

Our 1st contracted janitorial job is one of many to come, we are sure of it. Although we have done plenty of on call and emergency clean ups, we have just recently been awarded our 1st contracted cleaning job: a five-story condo building in Buffalo Grove, IL.

The folks at Turnberry Condos in Buffalo Grove are extremely satisfied with our crew.

We perform regular janitorial cleaning to their common areas two times per week including vacuuming carpets, cleaning tile floors, dusting ledges and cleaning trash areas. In addition to cleaning, we will inspect for light outages and other deficiencies or potential liabilities and of course we clean their exterior windows and pressure wash their garage. Not satisfied with your current cleaning company or just need competitive pricing? Give us a call.
